PORTABLE SPEAKER
Model: CMA3581-OD

PLEASE READ BEFORE OPERATING THIS EQUIPMENT.

1. The apparatus shall not be exposed to dripping or splashing and has been dropped or the unit does not operate normally.

FCC WARNING:
If you use the apparatus near a television, the quality of the picture may be improved by using the supplied ferrite core on the power cord of the TV set. If you have any question on installation of the ferrite core, consult your nearest authorized service center.

Connect the equipment into an outlet on circuit different from that to which the TV set is connected. If the apparatus causes interference to other equipment, try to correct the interference by one or more of the following measures:
- Increase the separation between the equipment.
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not used in accordance with these instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment is classified for operation in a residential environment, where there will be a low probability that harmful interference to radio communications will be caused.

SPECFICATIONS AND ACCESSORIES ARE SUBJECT TO CHANGE WITHOUT NOTICE

PORTABLE SPEAKER
Model: CMA3581-OD

- Powered by DC 5V through Micro USB port
- 1 x Audio Connection Cable with 3.5mm stereo mini plugs
- 1 x User’s Manual

Dimensions:
- 70(W) x 17(H) x 114 (D) MM

Accessories:
- 1 x Audio Conection Cable with 3.5mm stereo mini plugs
- 1 x User’s Manual

Power source:
- 3.7V 1600mAh Li-ion rechargeable battery

Frequency response:
- 80~18,000 Hz

Sensitivity:
- 85±3 dB

Impedance:
- 4 Ohms

Connection Cable to the AUX Out/Line Out/Phone Jack on the Discman…etc.

AUX IN:
- Jack socket compatible with a device with 3.5mm stereo plug (like iPod, MP3 player and so on). Insert Device to AUX in Jack.
- If the unit is not connected properly, it will not play.

USB Dongle connected mode:
- Insert USB Dongle into USB Port on the rear of unit and operate such as: 1. In USB Dongle inserted mode, insert the USB Dongle into the TF (Micro SD) Card. Make sure the USB Dongle with Micro SD Card support for read normal. Press and hold the Button repeatedly until “USB Dongle” hear from the speaker.

Maximum input:
- Max line input level: 2.2V (RMS) into 4 Ohms at 1KHz, 0° phase

Specifications and Accessories are subject to change without notice.
