Follow instructions carefully. Please note that these are general installation instructions and use only shielded cables to assure continued compliance, follow the attached installer's attention to Article 820-40 of the NEC that the antenna system is grounded so as to minimize the risk of引入 in the event that aperson is touched while touching it and is attempting to walk on bare feet. This product is intended to operate in the United States of America. It is not designed or intended for use in any country or outside of the United States of America except in Canada. This product is not designed for operation in any area where the power is provided by a public utility company and is not designed or intended for use in an area where the voltage varies more than 110 volts AC, 60 Hz. Do not use this apparatus near water. Do not use this apparatus near water or moisture. Do not use this apparatus near water or moisture. Keep these instructions. This unit may not have the capability to be connected to an outdoor antenna.

Installation:

1. Install the unit in a dry, dust-free area with adequate ventilation.
2. Install the unit away from any heat sources such as radiators, heat registers, or other devices that produce heat.
3. Install the unit away from any sources of vibration or shock.
4. Make sure the unit is grounded properly. The grounding system of the building should be connected to the unit.

Operation:

1. Do not use the unit near water or moisture. Do not place the unit near a swimming pool or in a wet basement.
2. Do not install the unit near any heat sources such as radiators, heat registers, or other devices that produce heat.
3. Do not install the unit in a location where it will be subjected to extreme temperatures or humidity.
4. Do not install the unit in a location where it will be exposed to direct sunlight.

Maintenance:

1. Unplug the unit from the wall outlet before cleaning.
2. Do not use any type of detergent or solvent for cleaning the unit. Use a soft, dry cloth to clean the unit.
3. Do not disassemble the unit. Do not attempt to repair the unit yourself.

Power Source:

1. Use only the size and type of battery specified. Do not use any other battery.
2. Follow the correct polarity when installing the battery as indicated in the battery compartment.
3. Do not remove the batteries to prevent damage or injury from possible battery leakage.
4. Do not dispose of battery in fire. Battery may explode or leak.

Radio:

1. Use the radio antenna to receive AM and FM broadcasts.
2. Adjust the antenna to obtain the best reception.
3. Use the volume control to adjust the volume level.

Alarm:

1. Set the alarm time by pressing the CLOCK/MEM button repeatedly.
2. Press the V+/AL 1 Button (V-/AL 2 Button) to set the alarm time.
3. Press the V-/AL 1 Button repeatedly to set the wake up mode to Buzzer (AL 1 BUZZER).
4. 6. Press the V-/AL 1 Button repeatedly to set the minute of alarm 1.
5. 5. Press the V-/AL 1 Button repeatedly to set the minute of alarm 1.
6. 4. Press the       /M Button repeatedly to set the minute of alarm 1.
7. 3. Press the       /H Button repeatedly to set the hour of alarm 1. (Make sure the PM Indicator is on.)
8. 2. Press the V-/AL 2 Button repeatedly to set the hour of alarm 2.
9. 1. Press the V+/AL 1 Button repeatedly to set the hour of alarm 1.

Other:

1. Do not expose the unit to rain, water, or moisture.
2. Do not open the unit. Open the unit may expose you to dangerous voltages or other hazards.
3. Do not disassemble the unit. Do not attempt to repair the unit yourself.
4. Do not use the unit for a long time. Use the unit for a short time to prevent overheating.

Model: SR9220
